about me

i like to be active in it feild. basically i am a artist so i could be go with ui designing but i'm interested in cyber security. in my past years i tried to follow up technology stuffs i like to find bugs and debugging it.i don't have enough achivements in anything so nothing to mention here i will make a good achievements in my career and life.i have good relations in it feild they would help me to contribute.one day i will become more powerful just wait and see. that's all about me thanks for reading this
